DRUG SAMPLES

1. The term "drug sample" means a unit of a prescription drug which is not intended to be sold and is intended to promote the sale of the drug. 21 U.S.C. §353(c).
2. Under the Prescription Drug Marketing Act ("PDMA"), 21 U.S.C. §353(d), a manufacturer or distributor of a prescription drug may distribute prescription drug samples to a licensed practitioner, or to the pharmacy of a hospital, or another health care entity at the request of a licensed practitioner. Prescription drug samples are not to be delivered to retail pharmacies for sale to consumers. Under the PDMA, no person may sell, purchase, or trade or offer to sell purchase or trade a drug sample. 21 U.S.C. § 353(c)(1).
3. The PDMA was enacted for several reasons, one being that "[t]he existing system of providing drug samples to physicians through manufacturer's representatives has been abused

for decades and has resulted in the sale to consumers of misbranded, expired, and adulterated pharmaceuticals." 21 U.S.C. §353 (note).
